WHERE VISION EVOLVES INTO REALITY

Commercial and Residential Real Estate

Various
Touch-Points
We Cover

Global Procurement for World-class Commercial and Residential Spaces

Arcedior has grown bigger and better. We have progressed from single to global procurement. Our clients from commercial and residential real estate field can now choose from thousands of solutions from across the world, within their stipulated budget, customised perfectly to their requirement and delivered on time, every time.

Post gaining command of the diverse markets of China, we have expanded our procurement network to global markets. The first leg of our expansion includes the captivating markets of India, Indonesia and Italy.

Our extensive experience including some of the most prestigious projects for renowned names of hospitality industry has fine-tuned our expertise. We explore, innovate, discover, examine and deliver exclusive solutions which impress.

We are passionate about our work and are progressing continually to be the trend-setters in the field of global procurement.

People-focused collaboration

Our approach is simple: Collaborate and realize. Our motto, even simpler: Delivering the ideal solution, on time.

We build a solid foundation for every project, by first understanding the vision of every stakeholder involved, by interfacing with them collaboratively. Based on this we develop innovative and cost-effective strategies, without compromising on creativity and quality.

Because we are obsessively meticulous about what we do, our global procurement process is absolutely thorough and includes extensive quality checks and seamless logistics planning. So you can be sure of an ideal solution, delivered on time, every time.

From our clients to our internal stakeholders, people are the heart of what we do.

Frequently Asked Questions

Can I order furniture customised to my size requirements?

Yes. The product size can be customised as per your requirements or you can also choose from the standard sizes available.

Do factories compensate for damaged goods?

The goods are shipped only after thorough inspections by the factories as well as our experienced team members. However, in few rare cases such as - a) there is a minor damage like a chip/scratch, it can be easily retouched to flawless perfection by a professional at nominal charges, b) Standard export packing insured, c) if a replaceable part is damaged, we shall help you get a replacement and d) if an incorrect product is supplied, we will help you get it replaced with a correct piece.

How soon can I expect the delivery?

The earliest possible delivery is within 2-3 months as it usually requires around 2 months for production and 1 month for shipping. However, it can be different for every order depending on the business norms of the country that you order from and the time it takes to reach you.

How durable are the goods?

Goods sourced by us undergo the most stringent quality checks. We take utmost care to procure only superior quality products from only the best and the most trusted suppliers.

Can I only buy furniture?

Yes, you can.

How soon can I get a price quotation?

Once we have complete details regarding your requirements, you will receive the price quotation within 7-10 working days.

Do you manufacture also?

No, we don't manufacture. We are sourcing specialists and help you identify the best products from across the world, as per your requirement and taste.

What is your pricing model?

Ex-factory prices are offered first, followed by the actual expenses which include applicable additional charges.

How can you ensure the best quotes from suppliers?

We only work with the most trusted suppliers and follow a strict procedure for verifying the quotations sent by them. We validate the quotations with the help of a detailed BOQ with complete specifications of raw materials to be used, set of drawings, reference images and 3D views.

Do your services also include installation?

We arrange for the installation of products on request.

How can I be certain that what I order is what I get?

Right from the manufacturing stage we see to it that the products are designed to suit your requirements. Also before shipping, we doubly inspect the goods, send across pictures and other relevant documents for client confirmation.

Can I get both loose as well as fixed furniture?

Yes.

Conference Room, Arcedior

Our Client's Advantage

Our 12-step Service Model

We have built an inclusive service model to ensure that our clients enjoy a zero-worries sourcing experience.

"Do it with passion, or not at all."
— Rosa Nouchette Carey

Arcedior Office

Loved what they said

"Have dealt with Mr. Vivek Agrawal and Arcedior team and found Excellent to deal with."

J. J. Poonawala (Architect)

Helping you make spaces that will be enjoyed for years to come

Arcedior also caters to the following sectors apart from Commercial and Residential Real Estate:

- Hospitality
- Corporate Spaces
- Education and Healthcare
- HNI Residences
